

Good Touch, Bad Touch

Your body belongs to you

Good Touch includes hugs from parents, doctor checking you in presence of your parents, your teacher patting you for doing your homework, your parents giving you a bath.

If a touch hurts you or makes you feel uncomfortable, it is a **Bad Touch**. Children being touched on their private parts without reason or someone touching you and telling you to keep quiet are examples of a bad touch.

Deki: You are the master of your body. Know your private parts: Lips, Chest, Parts between your legs and your bottom. Know the difference between a Good Touch and a Bad Touch.

Dawa: If someone gives you a bad touch, Say **NO!** and tell your parents, teachers and grandparents. Never keep it a secret.

Call **1098** if you have any concerns or witness child abuse!
